Get to Know the Haley Cremer Foundation

Our Mission

The Haley Cremer Foundation was founded in 2015 in loving memory of an outgoing, enthusiastic, and compassionate individual.

Haley was tragically taken from us on Father's Day, June 15, 2014. At the time of her death, Haley was preparing to enter her junior year at Simmons College to continue her studies toward a degree in physical therapy. She is remembered by all that knew her as someone who cared deeply for others. The Haley Cremer Foundation will honor Haley's memory by striving to do the same. Financial assistance will be awarded to aspiring physical therapists and associated rehabilitation professionals, medical research organizations, as well as programs dedicated to heal, grow and strengthen families facing profound challenges due to serious illness, trauma or death. Our goal is to make a difference in the lives of many, as Haley did during her short time with all of us.
